

PORTABLE DANCE FLOOR

The mobile dance floor is ideal for various venues such as hotels, restaurants, sports halls, clubs, etc. With our compact mobile dance floor system, you can easily set up a professional dance floor in a short time. Convenient transport and storage are facilitated by a dedicated trolley.

Portable Dance Floor

Key Features:

- Natural oak lacquered mosaic.
- Universal panel structure for quick installation.
- Massive aluminum frame ensures a perfect fit and maintains straight angles.
- Aluminum frame profile prevents deformation of wooden elements due to moisture or temperature changes and protects edges during transport.
- Panels connect using a latch system to prevent movement.
- Snap fastening without additional screws, preventing accidental adjustment or opening.
